GROUP INDUSTRIAL AURORA

WHAT TECHNOLOGY SOLUTIONS DOES

Technology Solutions brings together multidisciplinary expertise to help organizations strengthen resilience, protect information assets and build sustainable governance frameworks.

**ITS ROLE IS TO TURN SECURITY, COMPLIANCE AND
GOVERNANCE INTO PRACTICAL BUSINESS CAPABILITIES.**

ABOUT GROUP INDUSTRIAL AURORA

The company combines industrial capabilities with advisory services in information security, cyber governance, data protection and regulatory compliance.

GROUP INDUSTRIAL AURORA – DEFENSE & TECHNOLOGY SOLUTIONS IS AN INTEGRATED DEFENSE, SECURITY AND TECHNOLOGY COMPANY.

TWO BUSINESS PILLARS

DEFENSE SOLUTIONS

Industrial manufacturing, systems integration, dual-use technologies and international industrial cooperation.

TECHNOLOGY SOLUTIONS

Information security, cyber governance, data protection, risk management, regulatory compliance and organizational resilience.

GROUP INDUSTRIAL AURORA

DEFENSE
TECHNOLOGY
SOLUTIONS

**GROUP INDUSTRIAL AURORA OPERATES THROUGH TWO
COMPLEMENTARY BUSINESS PILLARS**

MODERN SECURITY EXTENDS BEYOND TRADITIONAL DEFENSE.

Governments, critical infrastructure operators and commercial organizations require integrated solutions that combine technology, governance, compliance and information protection.

TWO BUSINESS PILLARS. ONE INTEGRATED VISION.

OUR VISION

Security is no longer defined only
by physical protection or technical
controls.

It is built through governance, responsible leadership, resilient
processes, secure technologies and trusted information.

DEFENSE
TECHNOLOGY
SOLUTIONS

GROUP INDUSTRIAL AURORA

SECURITY BEYOND TECHNOLOGY

SECURITY IS AN ORGANIZATIONAL CAPABILITY.

It connects people, processes, leadership, information, technology and compliance into a model that supports continuity and trust.

SECURITY → TECHNOLOGY → GOVERNANCE → RESILIENCE → TRUST

BUSINESS MODEL

TECHNOLOGY SOLUTIONS

Technology Solutions represents **the advisory and governance pillar** of Group Industrial Aurora.

It supports organizations in protecting information, managing regulatory obligations and strengthening organizational resilience.

CORE AREAS

DEFENSE
TECHNOLOGY
SOLUTIONS

GROUP INDUSTRIAL AURORA

TECHNOLOGY SOLUTIONS IS BUILT AROUND SIX CORE AREAS:

Information Security

Cyber Security Advisory

Data Protection & Privacy

Governance, Risk & Compliance

Security Consulting

Regulatory Compliance

DEFENSE
TECHNOLOGY
SOLUTIONS

GROUP INDUSTRIAL AURORA

Rather than treating security, privacy, compliance and risk as separate functions, Technology Solutions integrates them into one business-oriented advisory model.

INTEGRATED ADVISORY MODEL

THE GOAL IS CONSISTENCY, EFFICIENCY AND SUSTAINABLE VALUE CREATION.

DEFENSE
TECHNOLOGY
SOLUTIONS

GROUP INDUSTRIAL AURORA

Effective information security requires governance, accountability, structured processes and continuous improvement, not technology alone.

INFORMATION SECURITY

INFORMATION IS ONE OF THE MOST VALUABLE ASSETS OF ANY ORGANIZATION.

INFORMATION SECURITY CAPABILITIES

CORE CAPABILITIES INCLUDE:

Information Security Governance

Information Classification

Information Asset Management

Information Risk Assessment

Security Policies

Security Awareness

Third-Party Security

Supply Chain Security

Information Governance

Security Documentation

GROUP INDUSTRIAL AURORA

TECHNOLOGY
SOLUTIONS

INFORMATION SECURITY VALUE

Technology Solutions helps organizations establish information security frameworks aligned with business objectives and regulatory expectations.

**VALUE DELIVERED: STRONGER PROTECTION OF INFORMATION ASSETS,
BETTER GOVERNANCE AND IMPROVED BUSINESS CONFIDENCE.**

GROUP INDUSTRIAL AURORA

DEFENSE
TECHNOLOGY
SOLUTIONS

Technology alone cannot eliminate cyber risk without executive leadership, effective policies, accountability and structured risk management.

CYBER SECURITY ADVISORY

CYBER RESILIENCE BEGINS WITH GOVERNANCE.

CYBER GOVERNANCE CAPABILITIES

CORE CAPABILITIES INCLUDE:

Cyber Security Governance

Cyber Risk Assessment

Executive Cyber Advisory

Security Framework Development

Incident Response Planning

Third-Party Cyber Risk

Supply Chain Security

NIS2 Readiness

ISO/IEC 27001 Readiness
